

NACON PRESENTS A NEW INNOVATIVE AND MODULAR MOUSE-KEYBOARD-MAT SET UP, DESIGNED FOR ESPORTS

Lesquin (France), 2018, October 18 – Nacon listens to players, and has proven it once again with a brand-new mouse-keyboard-mat set with innovative features and designs, fully adapted to the competitive gamer: the GM-500ES, CL-7500M keyboard and the MM-500ES mouse mat.

NACON GM-500ES // OPTICAL GAMING MOUSE WITH INTEGRATED CONTROLS

The GM-500ES is a **versatile** optical mouse, combining ease of use with gaming performance. **Perfectly ambidextrous**, it doesn't require any software for adjustments or settings, all while offering numerous customisation possibilities thanks to a **control panel hidden beneath its removable top**: light effect settings, left or right hand selection, DPI and polling rate.

Designed entirely **for competition**, it's equipped with high-quality Red/Blue OMRON-J switches and an unbraided USB cable for optimal glide.

Equipped with an **ultra-precise** optical sensor (up to 5000 DPI) and an **ambidextrous** design, the latest Nacon creation can be adapted to each player's hand size by switching out the top, which is provided in three sizes (small, medium, or large).

Technical features :

- Optical Avago PWM3310 Sensor (200-5000dpi)
- High Quality Red/Blue OMRON-J switches
- Rubber grip areas for perfect handling
- Full color light effects
- Non-braided, better sliding USB cable
- Removable back cover, 3 covers included (Small, Medium, Large)
- Direct access to mouse controls: Light colors (23 modes), Left / Right hand mode, Sensor resolution (DPI), Polling rate adjustment (Hz).

RRP: 49,90€ // Release: November 2018 // Assets:

NACON CL-7500M // COMPACT KEYBOARD WITH MECHANICAL OPTICAL KEYS

NACON has listened to players and designed an **innovative 89 key keyboard in a compact form**. Adapted to the way gamers play, the CL-7500M loses the numeric keypad to make it easier to transport during competitions.

Precision, longevity, and customisation

NACON opted for mechanical optical keys which guarantee the best precision and above all a life of at least **50 million presses**.

The keyboard is equipped with Blue switches, which ensure extremely precise and perfectly identifiable key rebound, an option that's becoming more and more popular with PC gamers.

NACON also include a set of 4 x Brown switches so that the gamer can really customise the feel of their keyboard.

Adaptive ergonomics

The CL-7500M's space bar is divided in to 2 part to ensure **increased reactivity** no matter where it is pressed. NACON has also integrated **retractable feet** that guarantee flawless stability, no matter which position you choose. Finally, the wrist rest is made up of two independent parts and is detachable in order to better adapt to your playing style. The CL-7500M keyboard is the epitome of practical innovation, which **improves gaming performance** and corresponds to player expectations.

NACON CL-7500M technical features:

- Optic-mechanical keys (blue switches): contactless technology for a lifecycle of 50 million clicks
- 6x Brown switches included to the modify movement of other keys
- Movement (WASD) and space bar key caps with different colours and texture
- Full anti-ghosting
- Full colour backlight (16.7M colours)
- 2-part space bar for conveniently placing the keyboard in a desired position
- Metal front plate
- Software suite included
- Windows® Vista®/7/8/10 compatible

RRP: 89,90€ // Release: November 2018 // Assets: <https://bit.ly/2w9l9yv>

NACON MM-500ES // XXL MOUSEPAD

To complete the set-up for the most demanding PC gamers, NACON has perfected an innovative mousepad, including a space dedicated to screen placement. Equipped with a **non-slip base**, it guarantees continuous grip no matter the desk surface, eliminating the risk of bumps during fierce gaming sessions. Whether you're left- or right-handed, **this giant mousepad has more than enough room for the mouse and the keyboard**, while leaving plenty of space for movement.

The MM-500ES features a **textured surface** which optimises smooth gliding. Finally, its **double stitching** prevents tearing and increases its longevity. The MM-500ES mousepad has been designed to guarantee optimal comfort and maximum precision in any configuration. It will be at home on any desk!

Technical features :

- 950 x 420 x 3mm
- Special cut out area for the monitor
- Double stitched edges to prevent tearing
- Nylon top material for pin point accuracy and fast, low-friction mouse movements
- Works with all mouse sensitivities and sensors
- Non-slip rubber base

RRP : 29,90€ // Release: December 2018 // Assets: <https://bit.ly/2NupRNb>

NACON ST-200MIC // MICROPHONE DE STREAMING PROFESSIONNEL

With the ST-200MIC microphone, NACON is addressing amateur and professional streamers who are looking for exceptional sound quality at an accessible price. Equipped with an analogue-to-digital converter providing quality sound and with an adjustable tripod, it easily adapts to all your recording needs.

Technical features :

- Cardioid pattern
- Integrated ADC with 16bit/48kHz resolution
- 3.5mm non-latency monitor/headphones output
- Including rotatable tripod
- USB cable (1.8m length)
- Windows® Vista®/7/8/10 compatible

RRP: 79,90€ // Available // Assets: <https://bit.ly/2C7sqD9>
